

Please don not allow Sinclair Broadcasting to air their smear film of Senator John Kerry. Sinclair is abusing their position as a public servant to air their personal vendetta against John Kerry. If you allow this film to be aired then please aaair the film UP RIVER which is an honest documentation of John Kerry's experience. I am only one voice and at my age, 68, I still have enough moral fibre in me to want to make a difference by stopping smut or at least asking you to honor my request on behalf of a veteran who fought valiantly for his country and that veteran is John Kerry. Thank you for your consideration.
Patricia Coffey, Mesa, Arizona
